#### Description

The Outer Reef 26 Trawler-Tug was one of thirty built by Outer Reef Marine of Florida, between the mid-1970s and mid-1980s. She is of trawler design, with a displacement hull and a ballasted keel running aft on centerline, to a protected prop and rudder secured at the bottom by a supporting strap. The exterior was designed to provide a tug-like look with aft mini-sundeck; wheelhouse with inside helm; berth forward and down; saloon/galley aft and down with port side head; and aft cockpit.
